

Texture Plast

Description

Texture Plast is a high performance, user friendly, skimming plaster compound, designed to provide total protection on structures constructed from porous substrates such as conventional plaster, fibre cement boards and block bricks.

Benefits

- Easy to apply
- Excellent water resistance and durability
- UV Resistant
- Variable texture can be obtained
- Excellent drying time

Model Specification

Product: Texture Plast
Thickness: 1-3mm
Colour: Various
Finish: Matt / Textured

Preparatory work and application in accordance with supplier's instructions.

Substrate Requirements

All substrates should be sound and free of contamination and loose materials. Texture Plast is ideal for Fibre Cement Boards, Concrete surfaces and block bricks.

Technical Information

The figures that follow are typical properties achieved in laboratory tests at 20 °C and at 50% Relative Humidity.

Mix Ratio: Single Pack

Pot Life: One Hour (Open pot)

Cure Time: One Hour (Touch dry)

Full Cure: Twenty Four Hours

Wash Up: Water (Immediately after use)

Consumption: 1 Ltr / 1 mm / 1 sqm

Important Note

Flowcrete's products are guaranteed against defective materials and manufacture and are sold subject to its standard Terms and Conditions of Sale, copies of which can be obtained on request.

Further Information

To ensure you are specifying a fit for purpose product for your project please consult our Technical Advisors on the number below or visit our website to register your interest in specifying one of the most durable products on the market.

Installation Service

The installation should be carried out, by a Flowcrete approved contractor with a documented quality assurance scheme. Obtain details of our approved contractors by contacting our customer service team or enquiring via our web site www.flowcretesa.co.za
